Our Lesson "Artificial Intelligence"

- ◆ The High school we visited : SMAN 3(8/26,27), SMAN 70(9/1,2)
- ◆ Objective : We let students in Indonesian high school to find interes in **advanced technology**.
- ◆ Outline :

1 Introduction
introduce ourselves and Japanese culture

2 Explain abstract

- show some short movies of AI (e.g.) Terminator, Doraemon
- use Siri and Age estimate app

It is easy for students to understand

3 Experiment

Perform **face recognition (Man or Woman)** in the whole class, using some parts of face

We teach structure of AI easily

4 Conclusion

- Present progress of the AI
- Future works of AI

- ◆ Realization : • It was difficult to tell students about AI easily in English.
• However as we weren't good at English, it was important to smile and use body language when we speak English.

Cultural Exchange

Origami

We taught **Origami** as Japanese culture to students in Indonesia. They were able to make a crane, a heart shape and more.

Dance

We were taught some **traditional dances** of Indonesia by high school students. Those moments were so exciting and we enjoyed dancing.

Friendship between UI students and us

First contact in Chiba University

UI students told us many advices about our class in Chiba University.

Welcome Ceremony

We met again in UI. UI student held **welcome ceremony** for us. They showed us all round UI, and told about UI and themselves.

Holiday

During the holiday, we had UI students guide us around Jakarta. We took many pictures with them and made a wonderful memories.

Farewell session

We were able to deepen the friendship through everyday activities that we had with them. We conveyed the gratitude at the **farewell session**.

Holiday

We visited many famous places and enjoyed our holiday with UI students. We could know about life in Jakarta.

TMII

Ancol

Monas

Grand Indonesia

Center of Jakarta

Conclusion

- ◆ We were able to learn about **Indonesian culture and life**. At the same time we found the similarity and difference between Japan and Indonesia, and had the opportunity to think "**How about in Japan..?**"
- ◆ We were able to experience and think a lot of things in Indonesia for two weeks.
